Data Handling

```
In [6]:  from sklearn import datasets
         iris = datasets.load_iris().data
         target = datasets.load_iris().target
```

Public Library & Importing Libraries

```
In [7]:  from sklearn.metrics.pairwise import euclidean_distances,manhattan_distance
         import numpy as np

         def calculateEucledianDistance(data):
             return euclidean_distances(data)

         def calculateManhattanDistance(data):
             return manhattan_distances(data)

         def eucledianDistance(a,b):
```
